Job Search Status

I am seeking an extremely challenging technical and (or) managerial opportunity and am willing to relocate or work remotely.

Introduction

I am a **PRINCE2 certified, full stack, technically versatile and process driven entrepreneur** with more than a decade of IT experience. I have been researching, architecting and managing projects for more than six years.

I currently work as Director - Technology at OurCompany (Co-Founder), which facilitates IT operation of Multinational companies. This is my fourth year in this role.

My dream is to utilize information systems, to enhance and add value to human effort, by micro managing myself and macro managing diverse teams.
